FIELD SHEET · PRINT IT · MARK IT UP · CRUNCH IT LATER

Hay test / TDN tag

Print this. Take it to the field. Write on it. Scan the QR (or type the URL) and punch the calculator when you're back at the truck.

Calculator: https://stanleyfarmandranch.com/resources/tdn/

Copy the dry-matter, TDN, and crude protein off the lab sheet or the tag. Then compare $/lb TDN, not the pretty bale.

Feed / lot	$/ton or $/bale	DM %	TDN %	CP %
